

LUCA PIOVEZAN

Front-End Developer & Web Designer

(31) 99518-1229 | lucapiovezan4@gmail.com | Belo Horizonte, MG, Brazil | linkedin.com/in/luca-piovezan | github.com/LucaPiovezan

PROFESSIONAL PROFILE

Third-year student of the Information Technology Technical Program (Cotemig), with hands-on experience building websites, systems, and mobile apps outside the classroom as co-founder of a digital agency and creator of independent projects published on GitHub. Proficient in modern front-end (React, Three.js), with a foundation in back-end (Python/Flask, C#, MySQL) and mobile app development in Flutter. Seeking a web development internship to apply this experience within a team and continue growing technically.

PROFESSIONAL EXPERIENCE

Co-founder & Front-End Developer — Marco Um (own agency)

2024 — present

- Designed and developed complete websites for real clients (urban cleaning services), including visual identity, responsiveness, and conversion optimization.
- Built a Python/Playwright scraper for lead generation via Google Maps, with deduplication and automatic checkpointing, used in active client prospecting.
- Built the agency's institutional website in React, featuring 3D animations with Three.js.

Administrative Assistant / Digital Support — PrecAtivos

Jun 2025 — Mar 2026

- Worked for 8 months organizing and prioritizing tasks under defined deadlines, ensuring on-time delivery.
- Created and maintained control spreadsheets, produced Instagram posts, and made website updates via WordPress/Elementor.
- Developed communication and teamwork skills through internal and academic projects.

FEATURED PROJECTS

School Management App — Flutter + Flask — Mentorly

- Mobile application with Coordinator and Teacher profiles, integrated with a custom Python/Flask API.

DESIGN & PROTOTYPING

- Proficient in Figma for building interfaces from scratch — wireframing, visual identity, interactive prototyping, and developer handoff.
- Designed several original interfaces (e.g., Kairo Tokyo Coffee, Orbita 2098), always aiming for a distinctive visual identity rather than generic layouts.
- Translates own designs into code with interface animations (Three.js), ensuring fidelity between prototype and final product.
- Focus on user experience (UX): visual hierarchy, consistency, and usability guiding every design decision.

TECHNICAL SKILLS

Front-End: HTML, CSS, JavaScript, React, Three.js

Mobile: Flutter (Dart)

Back-End & Data: Python (Flask), C#, MySQL

Design & UX/UI: Figma, prototyping, interface animations, WordPress/Elementor

Tools: Git & GitHub

SOFT SKILLS

Time management • Analytical thinking • Adaptability • Organization under deadlines • Communication and teamwork

EDUCATION

Technical Degree in IT (Web & Mobile Development) — Colégio Cotemig — Barroca (in progress) 2024 — Dec 2026
