PROFILE

3rd-year student in the Technical IT program at Colégio Cotemig. Skilled in HTML, CSS, JavaScript, and Python programming logic. Comfortable with interface design in Figma and creating animations. Seeking an internship opportunity to build practical experience in web development.

EXPERIENCE

PrecAtivos

Jun 2025 – Mar 2026

Precatórios company

Over 8 months, developed responsibility and organizational skills by managing defined deadlines, planning tasks, and prioritizing demands to ensure timely delivery. During this period, worked on creating and organizing spreadsheets, producing Instagram posts, and making site updates using WordPress and Elementor. Also improved communication and teamwork through academic and personal projects.

OBJECTIVE

Seeking an internship opportunity in Technology to apply my knowledge in web development and design. My goal is to grow professionally in the field, taking on increasing responsibilities and contributing strategically to team results.
